

# LIGHTS - CAMERA - ACTION

**To Play:** Select 2 – 6 players and assign each player an appropriate word list and reading page from their Stevenson Language Books to use during the game.

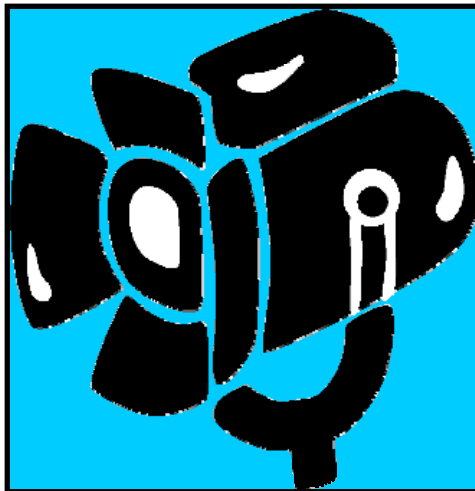

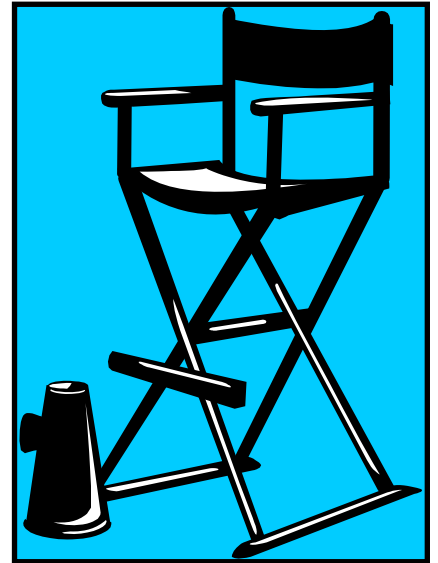

Select a player to begin.

Players spin or roll die and move number of spaces indicated.

They then complete the activity listed in the space.

Students may require help reading the game board directives and there should be adequate room for movement as many of the spaces require fun physical activity.
